***Ryan Labs Adds Portfolio Management, Client Service, and Marketing Staff***

*Richard Familetti, CFA*

*Bradley D. Jacob*

*Daniel J. Lucey, Jr.*

*Kenneth L. Szal*

**New York, NY** – Ryan Labs Asset Management continues to grow with the addition of four new positions heading into the third quarter of 2009. The four new Ryan Labs employees are:

- Senior Portfolio Manager Richard Familetti, CFA
- Vice President – Marketing & Client Services Bradley D. Jacob
- Institutional Portfolio Specialist Daniel J. Lucey, Jr.
- Marketing Associate Kenneth L. Szal

**Richard Familetti, CFA** joined Ryan Labs as a Senior Portfolio Manager specializing in corporate credit strategies. He has experience in investment grade corporate and high-yield bonds, employing a combination of fundamental and technical analysis.

Prior to joining Ryan Labs, Rich held positions at Halbis Capital Management (HSBC) as a long/short credit portfolio manager, Calyon Bank in proprietary trading, and he was a Managing Director at Credit Suisse Asset Management. Before this, Rich traded Mortgages, CMO's, and ABS for Lazard Freres Asset Management.

**Bradley D. Jacob** joined Ryan Labs as Vice President of Marketing & Client Service. He actively works in communicating applicable fixed income strategies to clients and consultants, and oversees client service efforts. Brad assists clients and consultants in the Eastern and Midwestern region with the implementation of fixed income solutions using market enhanced and custom liability indexes.

Previously, Brad worked at MorganStanley SmithBarney, where he was part of an institutional consulting team that provided investment advisory services to defined benefit pensions, hospitals, Endowments & Foundations, and other institutional clients.

**Daniel J. Lucey, Jr.** joined Ryan Labs as an Institutional Portfolio Specialist. D.J. is responsible for positioning Ryan Labs fixed income strategies to current institutional clients. He also assists with LDI strategies and credit research. His prior experience includes actuarial analysis, pension fund asset allocation and financial services strategy research. D.J. is a Level III CFA candidate.

Prior to joining Ryan Labs, D.J. was a Senior Research Analyst at Cerulli Associates, a financial services industry research and advisory firm, and an actuarial analyst for Fidelity Investments. He has also spoken at a number of conferences and events including Institutional Investor Institute's Roundtable for Consultants and Investors, and their Senior Delegates Roundtable, State Street's Collective Trust Forum, and Cerulli Associates' Strategy Forum.

**Kenneth L. Szal** joined Ryan Labs as a Marketing Associate. Ken is responsible for assisting the marketing department by conducting financial diagnostics, maintaining consulting databases, responding to requests for proposals, and preparing presentations for Ryan Labs' prospects. Ken is a recent graduate of the College of the Holy Cross, where he earned a Baccalaureate of Arts in both Economics and Religious Studies.

**About Ryan Labs** – Ryan Labs Asset Management, founded in 1988, offers actively managed enhanced fixed income strategies to institutional investors. Our diversified, disciplined, and structured investment process is deployed versus popular market benchmarks as well as custom liability indexes. In 1991, Ryan Labs became the first asset manager to create and manage a bond portfolio versus a daily Custom Liability Index® consistent with FAS 87/158 accounting standards.
